EDUCATION

York University

2023 - Present

Information Technology

TECHNICAL SKILLS

- **Programming Languages:** Java, MATLAB, HTML, CSS
- **Tools:** GitHub, IntelliJ IDEA, MATLAB App Designer, VS Code
- **Operating Systems:** Windows, MacOS
- **Concepts:** Object-Oriented Programming, GUI Design, debugging and testing

SOFT SKILLS

- Quick learner with flexible problem-solving and time-management skills
- Proactive self-starter with great interpersonal capabilities: open, friendly, and collaborative
- Independently selecting, evaluating, and using appropriate materials, tools, and resources
- Always approaches new tasks with confidence and a positive attitude

PROFILE

I am a high-achieving and enthusiastic student pursuing a degree in information technology and seeking a challenging job that will sufficiently help me improve my technical and problem-solving skills. I am proficient in Java, MATLAB, both front and back-end development, and I have also designed and coded a MATLAB marketplace for buying and selling second-hand products. I am currently strengthening my skills in video game development and modding to get a deeper comprehension of how logic, systems, and user interfaces interact in real-world applications. I am a fast learner who thrives independently and in collaboration with others.

WORK EXPERIENCE

SALES ASSOCIATE

Stokes

September 2022 - January 2023

- Respectfully interacted with clients to create a welcoming and safe environment
- Liaised with employees to maintain an attractive merchandise display in order to maximize purchases
- Assisted customers in finding or selecting items, and providing information and recommendations about products

SALES ASSOCIATE

Victoria's Secret

June 2024 - May 2025

- Drove sales through upselling products and informing customers about ongoing promotions
- Managed multiple tasks, including customer service, restocking and the cash register during busy hours
- Collaborated with team members to meet goals and upholding a positive and productive work environment
